To whom it may concern,

I am a bartender at a very busy bar in downtown Greenville, SC. I know how important uber is to a lot of patrons and it is always nice seeing people make the decision to uber rather than drive. A lot of people on the community have really been utilizing uber as a safe and reliable alternative for there nights on the town!

Please consider the benefits uber is bringing to this state!

Concerned bartender and uber customer

PSC,

I have been in South Carolina for (6) months and I am from NYC. So that makes me a typical Mt. Pleasant resident. As I don't drink and drive I defer to alternate means of transportation when going out socially. My first (2) months here I was using cabs, which were awful so I started using Uber. I became an instant fan so I started driving for Uber. In my (2) months driving and (4) as a user I can accurately relay the sentiment of the city of Charleston...the vast majority LOVE Uber! Pretty much everyone but the incumbent cabbies. There are many reasons for this...just ask our thousands of fans(users), but one is foremost, especially when under an attack from a PSC that should have the best interests of the people of SC: Uber has drastically reduced DUI's and related incidents. This cease and desist order clearly shows the politicians of SC have other allegiances unrelated to the welfare of the people. Rescind the cease and desist order immediately!

I strongly support uber in charleston. I travel all over the US for business and use uber in nearly every city I travel through. Not only are they reliable, their drivers are courteous, friendly, very appreciate of your business. Not to mention their fares are way more reasonable than taxi cabs. Using uber vs a normal taxi in my opinion is not a comparison.

Don't even need to get started on the airport restriction with uber. That's a joke. Pay more than double to ride in a taxi?? Uber is safe, affordable, extremely convenient, and a very reliable way to get to where you need to go. Especially if you have been out to dinner and had a few cocktails. It's gps track able so everyone knows where you are as well.

Uber needs to stay in charleston.

I would like to know why there was an order to stopped uber's operation? What is the logistic and/or politics behind this decision and don't give me some bs about consumer's safety.

Very respectfully,
